

SATURN WIRELESS® LLC | ENABLING A WIREFREE WORLD™

SATURN WIRELESS

Saturn Wireless is an award-winning AT&T exclusive partner and an industry leader in providing best in class technology solutions since 2006.

Saturn Wireless is the recipient of several tech industry awards and is a well-recognized and highly respected full-service technology consulting brand. The Saturn Wireless team strategically and creatively complements AT&T solutions with our signature services to create a seamless experience to the customers we serve, including Fortune 500 companies, and some of the largest global brands. Our mission and value are reflected in our highly experienced consultants who work continuously with integrity, high standards & values to execute customer success efforts and make Saturn Wireless the best in the technology industry.

Saturn Wireless is proudly certified as a Minority & Woman Owned company.

Saturn Wireless is privileged to be certified as an AT&T FirstNet Dealer.

Contact us today to explore AT&T solutions and learn how the Saturn Wireless team utilizes value-added services to help identify solutions that enhance your business's technology and support a flawless implementation.

Wireless

Our consultative approach fosters an understanding of our customer's goals as we collaborate to develop a strategic plan from ideation to implementation to ensure project success.

Orders Fulfillment

Our dedicated day-to day orders fulfillment experts strive to exceed customer expectations. We utilize AT&T's internal systems to provide order placement support with urgency and accuracy.

Professional Services

Our technology consultants work with customers to create a project plan that aligns with the project requirements & aids in eliminating the project's complexity.

Service Management

Our AT&T trained Service Managers use our signature consultative approach to identify account optimization opportunities while increasing monthly cost savings for our customers.

Internet of Things (IoT)

Our experts effectively support & manage any level of complexity involved in procuring IoT equipment & deploying an IoT solution to provide a consistent customer experience.

New & Refurbished Devices

We carry a vast selection of devices & accessories. Our inventory consists of Brand New, Open-Box, and Refurbished devices. We also offer device lifecycle management services.

Routers

Our experts have helped thousands of customers resolve connectivity interruptions, procure equipment, setup wireless back-up devices & eliminate business continuity challenges.

Wireline

Our consultants are experts in AT&T voice, data, security and cloud applications. We help identify the right solutions and assist with implementing them in a timely and effective manner.
